

AWAAIT will participate at TRA 2018 in Vienna with a pitch on Artificial Intelligence applied to public transport to tackle fare evasion

The European Innovation Council has invited AWAAIT to present TRAINSFARE project and to attend a workshop on mobility sector opportunities

Barcelona, April 6th, 2018 – AWAAIT will participate at [Transport Research Arena \(TRA\) 2018](#) in Vienna. The European Innovation Council has invited the company to present its project [TRAINSFARE](#), aimed at tackling fare evasion in public transport, and to participate in the “Working with corporates in the Mobility sector” workshop.

Both events will take place on Monday 16th at TRA’s Market place. The workshop will start at 12.30pm and in the afternoon Chief Innovation Officer, Toni Miranda, will pitch on [DETECTOR](#), the real-time video analytics system powered by Artificial Intelligence behind the TRAINSFARE project.

Session	Time	Place
“Working with corporates in the Mobility sector” workshop	Monday 16 th at 12.30pm	Market place
Pitching contest	Monday 16 th starting at 4.40pm	Market place

AWAAIT will also attend the [ETNA 2020 Brokerage Event](#) on Tuesday 17th. This will be a good opportunity to hold bilateral meetings and oral presentations in front of potential partners, distributors and investors.
