

Open Position: System Administrator

AWAAIT is an Artificial Intelligence startup with an expanding portfolio of international projects and clients. We value diversity, contrasting personalities, work-life balance, meritocracy, and fulfilling jobs. We respect and recognize the contributions of each member.

Our growing inflow of challenges requires creative problem-solving skills. We are now looking for new talent to work full-time and on a permanent basis in our Barcelona headquarters.

The System Administrator will manage the company's hardware ecosystem, resolving day-to-day incidents, and implementing hardware monitoring and management systems.

You'll be working with edge and cloud infrastructure that is deployed worldwide. Our hardware is primarily comprised of servers, computing servers equipped with GPUs, cameras and sensors. The position's challenges will require creativity, as you'll be required to adapt our requirements to the available infrastructure.

Basic Tasks and Responsibilities:

- Resolving hardware issues
- Computer assembly and software installation
- Hardware management (warranties, updates)
- Development of monitoring tools
- Development of an alert system to manage operational errors

Extended Tasks and Responsibilities (depending on the profile and availability of the candidate):

- Development of a dynamic process manager based on the hardware available
- Hardware testing and evaluation, including cameras and other sensors

Must-have Skills and Experience:

- Git
- Python
- Linux - Debian

Nice to have Skills and Experience:

- Flask
- Nginx
- Netbox
- Redhat
- SQL
- LDAP
- VPN
- AWS

Other skills

- Working level of English
- Assertiveness and ability to work effectively with little supervision

Candidates who demonstrate the necessary skills, experience, motivation, and commitment to carry out the responsibilities described above will be retained, regardless of formal education level, ethnicity, national origin, gender, physical or mental disability or age.

What we offer

- Incorporation in the first semester of 2022 as a member of a vibrant, innovative, and close-knit team
- Offices with natural light and good city views on Diagonal, near Francesc Macià Square (Barcelona)
- A flexible schedule and the ability to combine office and remote work
- Competitive salary, according to skills and experience
- Participate in the scale-up phase of a leading artificial intelligence startup

Would you like to apply?

If you are interested, please send an e-mail to jobs@awaaait.com with the subject "System Administrator", attaching your CV and a short text explaining why you want to join us: knowing your motivation and professional value ahead of time will make the selection process go more smoothly.
